PROFESSIONAL EXPERIENCE

ServiceNow Specialist

Tata Consultancy Services (TCS) *Oct 2025 – Present*

Client: PwC – Global Professional Services

- Architected and delivered scalable ServiceNow solutions supporting PwC's enterprise service management ecosystem across ITSM, CSM, SPM, and ATF.
- Automated end-to-end workflows using Flow Designer and IntegrationHub, improving service delivery efficiency and reducing manual intervention.
- Integrated ServiceNow with external enterprise platforms via REST and SOAP APIs, strengthening governance and operational visibility.
- Collaborated with global stakeholders to translate complex business requirements into high-performance technical solutions aligned with ITIL best practices.

ServiceNow Consultant

Nowtilus *Oct 2023 – Present*

Client: 3 Corações (Retail & Beverage), Profectum (Consulting), Evora IT Solutions (Consulting), WestJet (Airline)

- Designed scalable ServiceNow architectures aligned with long-term digital transformation strategies.
- Led stakeholder engagement to align technical delivery with business objectives, ensuring high adoption and value realization.
- Developed custom ServiceNow solutions that enhanced operational efficiency and supported expansion in large retail environments.
- Orchestrated platform integrations that streamlined internal systems and improved cross-departmental workflows.

ServiceNow Consultant V

Capgemini *May 2025 – Jun 2025*

Client: Bradesco – Major Financial Institution

- Delivered enterprise-grade ServiceNow implementations for large financial institutions, aligning ITSM capabilities with strategic business goals.
- Automated manual service management processes using Flow Designer, reducing ticket resolution time and increasing operational efficiency.
- Integrated ServiceNow with monitoring and HR systems to create a unified digital workflow ecosystem.

ServiceNow Tech Lead

Deloitte *Feb 2025 – May 2025*

Client: Petrobras – Energy Sector

› Led the design and deployment of scalable ServiceNow solutions to optimize IT operations and service delivery.

› Spearheaded workflow optimization initiatives, improving system performance and reducing operational bottlenecks.

› Provided technical leadership to ServiceNow development teams, enforcing best practices and ensuring high-quality deliverables.

ServiceNow Consultant

Delfia *Sep 2022 – Apr 2024*

Client: Caixa Econômica Federal, Bradesco, GPA, LocaWeb, Raia Drogasil, Alelo, Arcos Dorados, Vivo

› Designed and implemented complex ServiceNow integrations, reducing manual processes by approximately 40%.

› Automated approval workflows, achieving up to 70% reduction in manual approval handling.

› Developed custom Business Rules, Client Scripts, and UI components, improving platform usability and adoption by 25%.

› Implemented REST and SOAP integrations to connect ServiceNow with multiple third-party enterprise systems.

ServiceNow Developer

Keyrus *Nov 2021 – Oct 2022*

Client: Claro, Keyrus

› Automated business processes using UiPath, reducing processing time by up to 65%.

› Built and maintained system integrations using REST APIs and GraphQL, improving data flow and system interoperability.

› Developed custom web applications and integrated ServiceNow with Pipefy and internal platforms.

Full Stack Developer

Paiva Tech *Jun 2020 – Nov 2021*

› Developed responsive web applications that increased client engagement metrics by approximately 30%.

› Built serverless solutions using AWS Lambda, reducing infrastructure costs by 25%.

› Designed RESTful APIs for real-time data exchange; created modern UIs with React.js and Bootstrap.

Automation Developer

Stefanini Brasil *Jan 2021 – Feb 2021*

Client: Alcoa – Mining & Manufacturing

› Automated operational workflows using VBA, reducing manual intervention by 40%.

› Optimized data extraction and reporting processes, decreasing processing time by 50%.
